

MIGRATORY BIRD FESTIVAL

Saturday, October 17th - 9am-1pm
University of St. Martin

The Migratory Bird Festival is a free, public event where residents and visitors alike can see and learn about the migratory birds that travel thousands of miles each year to visit or spend the winter in St. Martin. These amazing birds connect the Americas with their incredible journeys, and St. Martin plays an important role in their life cycle. This event features guided birding tours, multimedia presentations, a portable pond aquatic invertebrates activity, migratory bird-themed art activities and a heritage tree seedling giveaway.
